COVID-19 Resources

What you should know

The Village of Clyde is following the direction of Alberta Health Services (AHS), Government of Alberta and Health Canada.

For more information and resource links, please visit our COVID-19 Resource page.

COVID—19 UPDATES

As most residents are aware, we are in the midst of a worldwide pandemic.

The Village of Clyde Administration have been posting any changes and updates on our website www.villageofclyde.ca as well as our Facebook page. Please read the attached sheet and follow the guidelines set out by Provincial and Federal Governments as well as Alberta Health services.

Thank you for your diligence and cooperation during this most difficult time.

**Please do not
flush anything
other than toilet
paper down the
toilet.**

Baby wipes, wet wipes and other items which are labelled as flushable are extremely damaging to our lift station pumps and should be thrown away, not flushed.

The Village Public Works had to pull and unplug one of our lift station pumps which was full of wipes. Please place them in the garbage to make sure the sewer system keeps working with no issues.

Recycling

ABOUT CORONAVIRUS DISEASE (COVID-19)

WHAT IT IS

COVID-19 is an illness caused by a coronavirus.

Human coronaviruses are common and are typically associated with mild illnesses, similar to the common cold.

SYMPTOMS

Symptoms may be very mild or more serious. They may take up to 14 days to appear after exposure to the virus.

FEVER

COUGH

DIFFICULTY BREATHING

HOW IT IS SPREAD

Coronaviruses are most commonly SPREAD from an infected person through:

- ▶ respiratory droplets when you cough or sneeze
- ▶ close personal contact, such as touching or shaking hands
- ▶ touching something with the virus on it, then touching your eyes, nose or mouth before washing your hands

These viruses are not known to spread through ventilation systems or through water.

PREVENTION

The best way to prevent the spread of infections is to:

- ▶ wash your hands often with soap and water for at least 20 seconds

- ▶ avoid touching your eyes, nose or mouth, especially with unwashed hands

- ▶ avoid close contact with people who are sick

- ▶ when coughing or sneezing:

- cover your mouth and nose with your arm or tissues to reduce the spread of germs

- immediately dispose of any tissues you have used into the garbage as soon as possible and wash your hands afterwards

- ▶ clean and disinfect frequently touched objects and surfaces, such as toys, electronic devices and doorknobs.

- ▶ stay home if you are sick to avoid spreading illness to others

IF YOU HAVE SYMPTOMS

If you have SYMPTOMS of COVID-19 — fever, cough, or difficulty breathing:

- ▶ stay home to avoid spreading it to others
 - if you live with others, stay in a separate room or keep a 2-metre distance

- ▶ call ahead before you visit a health care professional or call your local public health authority
 - tell them your symptoms and follow their instructions

- ▶ if you need immediate medical attention, call 911 and tell them your symptoms.
